'The most imperative need of the navy today is of additional officers. I cannot overstate this need. It invites

A large multitude, of course, hold out against the persuasions of friends and die simply because they have allowed their minds to be poisoned against this very excellent remedy.

But fortunately there is another large multitude of people who are able to shake off their prejudice and try Peruna before it is too late. These people are rarely disappointed. They generally try other remedies at the beginning of their troubles. They allow a cold to develop into catarrh of the head. They allow catarrh of the head to gradually become catarrh of the throat. They still keep using the doctor's medicine, or some other ineffectual remedy. The catarrh stealthily spreads down the bronchial tubes and reaches the lungs. Everybody then becomes alarmed. Faith in the doctor begins to disappear. The patient reaches a state of mind in which he is willing to try almost anything. A bottle of Peruna is sent for.

The reports of the several bureaus are largely made up of criti-cisms upon and plans for the improve-ment of present systems of practice, other indictments were returned against persons whose names were kept secret because they are not yet

The report in part says: "Citizens of St. Louis have learned with shame how they have been mercilessly robbed for years. We have the past nine months been regaled with the greatest exposure of corruption the world has ever known. We believe the people have been awakened and the public conscience has been quick ened, and we feel gratified that the law is vigorously enforced and due and proper punishment is being meted out

to these public plunders. "We have spent some time in toyes tigation of crimes against the ballot While it is clear that many fraud: have been perpetrated, the difficulty of procuring direct testimony is very great. Vice President Resorts to Suspension of the Sitting.

SOCIALISTS GET EXCITED

Rush Up to Speaker's Desk, Shouting And Gesticulating- Liberal Papers Express Much Amazement.

Berlin, Nov. 28 .- The 'ormy scenes which were enacted yeste day were renewed in the reichstag today, and at one point in the proceedings the uproar reached such a pitch that Vice President Buessing, who was in the chair, had to resort to a suspension of the sitting, a measure without precedent in the reichstag.

After a quite afternoon Dr. Bachem of the Center party took the tribune and, describing the dilatory tactics of the opposition, said that the Freissin nige Vereinging and the moderate Radicals were doing hod-carriers' service for the Socialists, adding:

"If you only knew what has recently been said about this alliance-Herr Bachem left the sentence un

finished, and the Socialists shouted, "Out with it. Name your man."
The Socialists, Staethagen, Ulrich, Baudert, and other members of the party rushed up the steps of the speaker's desk shouting and gesticulating violently. Herr Gathein, Radical, standing at the top of the steps of the tribune, tried to keep the Socialists back. He was hurled down the stairs and his voice and the vigorous ringing the president's bell were drowned in the tumult. The Socialistic member, Reisshaus, renewed the demand that Herr Bachem should complete his sentence. The speaker was twice called to order, but after some minutes of dis-order Vice President Buessing succeeded in quieting the uproar, saying:
"No member can be compelled to say

what he does not want to say." Thereupon the tumult was renewed and the members of the Socialist party again stormed the president's tribune, wildly shouting. Some among them addressed Herr Bachem as, "You rascal; you dog."

Vice President Buessing, finding him-

self powerless in the face of the howling cyclone, suspended the session for Upon the resumption of the sitting, at

o'clock, Vice President Buessing expressed his profound regret at the unfortunate outrageous scenes of disorder which had occurred in the reich stag for the first time in its history He admonished the members to exer-cise control over themselves, and asked them to vacate the space in front of the president's chair, including the tribune steps, which were thickly crowded. Herr Singer then took the floor and said that Herr Bachem had insulted most deeply the Socialist party. LIBERALS ARE AMAZED.

Berlin, Nov. 28.-The Liberal pa bers today, discussing yesterday's proceedings in the reichstag, emphasize the gravity of Baron von Karderff's proposal to pass the tariff bill without any discussion of the details. Even the moderate National Zeitung, the official organ of the National Liberal party says: "It is a parliamentary coup d'etat," and expresses amazement and indigation to find the names of the National Liberal leaders, Dassermann, Paasche and Settler, attached to Baron

von Kardorff's motion.
The Tageblatt and Vossische Zeitung characterize the proposition as a revo The Tageblatt calls the day lution.

"Black Thursday."
Baron von Kardoff's motion provided that the house shall vote the bill "on blood," but it embraces certain reductions upon the government's figures for agricultural implements and machinery averaging from 15 to 25 per cent. It is understood that the government has consented to the compromise, including an increase of malting barley to 4 marks, as was demanded by the Center party, and the abolition of the muni-cipal octrois. The government also agreed to devote the surplus revenues proceeding from the new tariff to the insurance fund for widows and or-

Imperial Chancellor von Buelow and Secy. von Posadowski have at ious times pronounced such changes in the tariff bill as are unaceptable to the government. The indications are that after the adoption of Baron von Kardorff's motion some days will elapse before the final vote on the second reading of the tariff bill is reached. The Socialists and Radicals will at tempt to graft many amendments under the compromise scheme, just an outline of which may keep the house voting for weeks.

Manufacturers Have Orders Fat Abend - Every Effort Being Made To Relieve Freight Congestion.

Co.'s Weekly Review of Trade will say tomorrow: Weather conditions have proved the

Important movement in the last week in the business world. Excess of rain in some sections, notably the southwest, facilitated distribution of heavy food products, overshoes and kindred lines, while seasonably low temperature at other points increased the movement of winter wearing apparel. These influences, together with a large Thanksgiving trade in food products, stimulated retail dealings very materially. The jobbing and wholesale trade is fully maintained and manufacturing plants have orders far ahead, but in many cases the coke shortage retards operations.

Inquiries for pig iron became more

urgent as the scarcity grows more acute. Furnaces are added to the idle list, when there is full occupation for every plant in the country, but the fue shortage is not perceptibly improved. Minor metals are generally weaker tin being especially depressed. Silver bullion has fallen to much the lowest price on record, the intrinsic value of a silver dollar now being about 38 cents
